

I am writing to express my strong support for XM Radio and their efforts to make their program selections highly relevant to my needs and wants. I have been an XM Radio listener for about a year and a half. I enjoy the listening selections and all the more so now that I can obtain local, on-demand traffic and weather reports. They are providing exactly the type of service I want. I could not be happier with XM Radio!

I encourage the FCC to reward businesses like XM Radio who provide a welcome and desirable service. I would be greatly disappointed if they were to be restricted in their ability to meet my desires for great programming. Thank you.
